Die nebenstehende Matrix zeigt, welche Desinfektionsmittel zur Flächen-Desinfektion von skai® Polstermaterialien empfehlenswert, bedingt empfehlenswert oder nicht zu empfehlen sind. Diese Einstufungen beruhen auf Erkenntnisse aus einer umfangreichen Testreihe mit den aufgeführten Materialien.

- Desinfektionsmittel, die zur Flächen-Desinfektion von skai® Polstermaterial empfohlen werden.
- Desinfektionsmittel, die zur Flächen-Desinfektion von skai® Polstermaterialien bedingt empfohlen werden. So gekennzeichnete Desinfektionsmittel bitte vor dem großflächigen Einsatz an einer verdeckten Stelle prüfen. Falls möglich verdünnt anwenden und nicht über einen längeren Zeitraum einwirken lassen.
- Desinfektionsmittel, die zur Flächen-Desinfektion von skai® Polstermaterialien nicht zu empfehlen sind.

Anmerkung: Die Zusammensetzung der Desinfektionsmittel entspricht dem Stand zum Zeitpunkt der durchgeführten Prüfung. Für etwaige Änderungen an der Formulierung der Desinfektionsmittel durch die Hersteller kann seitens der Konrad Hornsusch AG keine Gewähr übernommen werden.

* Laut Herstellerangabe wirksam gegen SARS-CoV-2

Einwirkzeit / Verwendung entsprechend der Herstellerangaben auf dem Produkt.

The adjoining matrix shows which disinfectants are recommended, conditionally recommended or not recommended for disinfecting skai® upholstery materials. These classifications are based on the results of an extensive series of tests on the listed materials.

- Disinfectants recommended for disinfecting skai® upholstery material.
- Disinfectants which are only conditionally recommended for disinfecting skai® upholstery material. Disinfectants marked as such should be tested beforehand on a hidden section of the material. If possible, use diluted and do not allow them to act for a prolonged period.
- Disinfectants not recommended for disinfecting skai® upholstery material.

Note: The composition of the disinfectants corresponds to the status at the time of the test performed. Konrad Hornsusch AG cannot be held responsible for any changes in the formulation of disinfectants by the manufacturer.

* According to manufacturer's specifications, effective against SARS-CoV-2

Reaction time/use in accordance with manufacturer's instructions on the product.

La matriz que se muestra al lado indica qué desinfectantes son recomendables, relativamente recomendables o no recomendables para la desinfección de las superficies de los materiales de tapizado de skai®. Estas calificaciones se basan en las conclusiones de una amplia serie de pruebas realizadas con los materiales enumerados.

- Desinfectantes recomendados para la desinfección de las superficies de los materiales de tapizado de skai®.
- Desinfectantes condicionalmente recomendados para la desinfección de las superficies de los materiales de tapizado de skai®. Por favor, aplique los desinfectantes con dicha calificación en una zona no visible antes de aplicarlos en un área grande. Si es posible, aplique los rebajados con agua y no los deje actuar demasiado tiempo.
- Desinfectantes no recomendados para la desinfección de las superficies de los materiales de tapizado de skai®.

Observación: La composición de los desinfectantes corresponde al estado en el momento de la prueba realizada. Konrad Hornsusch AG no se hace responsable de ningún cambio en la formulación de los desinfectantes por parte de los fabricantes.

* Medidas efectivas contra el SARS-CoV-2 según el fabricante

Tiempo de exposición/uso según las instrucciones del fabricante del producto.
